Disposable Beard Covers

Specifications

Description

CleanPro® beard covers are manufactured with a continuous filament structure that prevents fraying or ripping. Loose fibers or lint remain intact instead of falling to surfaces or landing on products. Latex-free materials eliminate the risk of allergens and contact dermatitis over long shifts.

Product Features

- Cleanroom Classification: ISO Class 5 (Fed. Class 100)
- 12 gsm Polypropylene
- Latex-Free
- Airborne Particle Counts available upon request
