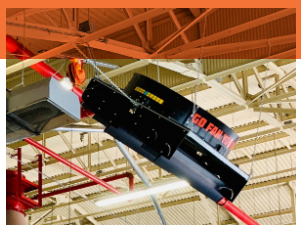
TAZ FAN™

VIVIDAIR™
ANYTHING ELSE IS STALE



Variety of mounting and install applications.

Different is cool®

VividAir Air Science.

OBSTRUCTED CEILINGS? TIGHT SPACING? TAZ UTILIZES AIR SCIENCE TO CREATE AN INDUSTRIAL TWO-DIRECTIONAL FAN THAT FITS RIGHT WHERE YOU NEED IT. KEEPING AISLES COOLER THAN EVER, AND SAVING YOU MONEY AT THE SAME TIME.

IDEAL FOR

Obstructed ceilings and aisles. Replacement for basket fans.

Same heavy duty power and patented blades as our HVLS fans, but optimized for your facility's needs.

Where there's a roof, there's a way.

2 STANDARD SIZES

72 in, 36 in

FEATURES

COVERAGE AREA

More concentrated airflow patterns than HVLS fans, generating 135 ft of linear cooling coverage and up to 75,200 CFM.

APPLICATION DIVERSITY

TAZ mounts flat or angled, making it the ideal cooling solution for aisels or mezzanines. Option for singular or multidirectional air movement.

POWER-SAVING

One TAZ can replace up to 4 panel fans or 8 basket fans, all while using half the power. Our maintenance-free motor ensurses a long life for your fan.

WARRANTY AND SAFETY

TAZ has 4 individual hanging anchor points with screens on top and bottom. 3-year warranty on all parts, blades, and mounting system.
